

## World Animal Day: We invite you for shared compassion, action & information

in Odemira & Tamera on October 4th, 5th, 6th (Friday-Sunday)

### FOR THE PROTECTION OF ANIMALS

*"I can imagine a world - because it has always existed! - in which man and beast live together in an alliance, in peace and harmony, a world transformed day by day by the magic of love, a world free from death. It is not a dream." - Henry Miller*

### Friday, October 4<sup>th</sup>

Join us on this day to draw attention to the situation of animals.

The dog shelter in Odemira has an Open Day. The Tamera team, along with regular volunteers of the dog shelter, will be there to support. Take the time to visit and inform yourself about the circumstances these dogs live in. You should register before you visit here: [bit.ly/2lVSmtv](https://bit.ly/2lVSmtv). We will also support the shelter by spending another afternoon with the dogs, taking a long walk, playing with them and giving them the chance to socialize with other humans. Through both of these events we want to increase public awareness of the urgent need for an outdoor enclosure for the dogs.

In addition, we want to use the weekend to encourage restaurants to avoid products coming from industrial mass production that cause so much suffering to animals and people working in slaughterhouses, factory farms and other places of animal abuse. Please help us and pass on the flyer in the attachment to your favorite restaurant, inspire them to be part of this statement!

### Saturday, October 5<sup>th</sup>

3pm in Tamera

During the open afternoon in Tamera visitors will get an insight into the project's work with various animals.

**Horses:** Cooperation instead of dominance, trust instead of exploitation. communication in mutual understanding.

**Dogs:** Reconciliation of man and dog as non-judgemental companion: Can we accept their unconditional love? Appropriate dog housing in packs and enclosures.

**Bees:** Swarm intelligence, cooperation and communication with the spirit of the bees. Healthy beekeeping without exploitation or chemical treatments.

### Sunday, October 6<sup>th</sup>

5pm, Cultural Centre in Tamera  
Political Café with Alfredo Cunhal

Alfredo Cunhal Sendim is an organic farmer and owner of the "Herdade do Freixo do Meio" farm near Montemor-o-Novo. In his early years, he worked in the Algarve as a fisherman in Ferragudo, and later followed his dream of building a paradise of cooperation of human and nature with the original family business.

He integrates many impulses of sustainable agriculture, including "Montado" and "Holistic Planned Grazing." This method uses animals as cooperation partners to reverse desertification and climate crisis.

***Animals are our helping friends, they together with us regenerate the planet.***
